Introduction

What's New in this Release?

The 3.46C release resolves an issue that could occur in networked environments.

Installing Your Upgrade

You can download the latest version from within Ace Payroll—just follow these three easy steps:

1. Back up your payroll data to an external drive or Ace Payroll online. Close any open programs.

Note: You may need to log in as a Windows administrator to do this.

2. Go to **Utilities > Ace Payroll Online > Download An Upgrade** and follow the onscreen instructions.
3. Ace Payroll restarts automatically after the installation. After it's restarted, press F5 and check that it displays the latest version number, 3.46C.

If you experience any difficulties, check you are connected to the internet and have administration rights to install new software.

If you have any questions, give us a call on 0800 ACE PAY (0800 223 729).

We're here to help.

Resolved Issues

An issue was identified in previous releases, which could result in corrupt payslips being emailed out when the application and data file storage were configured across a network. This issue is resolved in this release.
