

Welcome to YourPay

Hey, employers! Check out Using YourPay for timesheets and payslips instead.

YourPay is a website which works with MYOB Essentials where you can enter timesheets and check your payslips. It works on any browser via a smartphone, tablet or computer, so you can access it anywhere - and no need to download an app.

When your employer invites you to YourPay, you'll receive an email with a link. Can't find the email? Ask your employer to resend it, or access YourPay at <https://yourpay.myob.com>. (You'll need to sign in with the MYOB account you were asked to create).

If you don't have an MYOB account, you'll need to set one up. You'll also need to set two-factor authentication security for this account. [Learn more.](#)

Save <https://yourpay.myob.com> to the home screen of your smartphone for quick access. How? It depends on the phone, but usually involves opening the webpage and selecting **Add to home screen** from the browser menu.

Entering your timesheets
