

# ATO deferral for STP

*AccountRight v19 Plus, Premier and Enterprise, Australia, M-Powered Payments users only*

AccountRight v19 is not compatible with [Single Touch Payroll reporting](#). If you need to report your payroll activity, you need to [upgrade to the new AccountRight](#).

MYOB worked with the ATO to get a deferral from STP reporting, and this deferral expired on **31 December 2019**. If you can't report STP you'll need to contact the ATO a further deferral or exemption.
