

Switching between email and app two-factor authentication

There are two ways to use two-factor authentication (2FA) with your MYOB account. You can receive codes via email or through an authentication app. [Help me choose which method to use.](#)

If you're not receiving your email 2FA codes, [use a backup code](#) instead or see [getting help with 2FA](#).

Here's how to switch from one to the other and how to change your email address if you use email 2FA.

To switch from email to app 2FA

To switch from app to email 2FA

To change your 2FA email address

Having trouble changing your 2FA method or device?

See [Getting help with two-factor authentication](#).
